Stanley,

1st Quarter 2024 sampling of Twenty Private Wells, the Spring Farms Elementary School Well, and Six Site Monitoring Wells was conducted from March 11 through 13, 2024. Results from these samples indicate that nothing was detected in any of the samples. Hard copy results will be sent out to each of the private well owners shortly. The next quarterly sampling is scheduled for June 2024.

Contact me if you have any questions. Thanks.
